

Adobe® CQ 6®

AEM: Digital Asset Management Developer

Duration: 2 Days | 16 Hrs

Know Tomorrow Today

Course Description:

This two-day course is designed for developers who are looking for in-depth knowledge of AEM Digital Asset management tool. AEM works with WebDAV client, Creative cloud, and Scene 7. In this course, participants will learn to configure these tools, and utilize them to give a better web-solution to end users. This course thoroughly demonstrates how users across an organization can manage, store, and access images, videos, documents, audio clips, and rich media such as Flash files for use on the web, in print, and for digital distribution

Target audience:

AEM Developer or equivalent

Objective:

The objective of this course is to help students master the AEM Digital Asset Management tool. Topics covered:

- DAM Terminology
- Uploading Assets with the DAM Admin UI
- Update DAM Asset Workflow
- WebDAV Client
